PROFESSIONAL SUMMARY

I am an Information Technology professional with an **A.A.S. in Information Technology, Software Development concentration**, and hands-on experience spanning software development, IT systems, networking, databases, and technical troubleshooting. Skilled in **Java, JavaScript, Python, HTML/CSS, React.js, Node.js, MySQL, REST APIs, Git/GitHub, Microsoft 365, Windows, Active Directory, PowerShell, networking, and virtualization**. Strong analytical, communication, problem-solving, and collaboration skills with the ability to learn new technologies quickly.

TECHNICAL SKILLS

Software: Java, JavaScript, Python, HTML5, CSS3, React.js, Node.js, REST APIs

Data: MySQL, SQL, Relational Databases, CRUD Operations

Systems: Windows 10/11, Windows Server, Active Directory, PowerShell, Microsoft 365, Virtualization

Networking: TCP/IP, DHCP, VLANs, DNS Fundamentals, Network Troubleshooting

Tools: Git, GitHub, VS Code, NetBeans, JGrasp

Professional: Troubleshooting, Documentation, Problem Solving, Communication, Teamwork, Adaptability

EDUCATION

Central Piedmont Community College — Charlotte, NC

Associate in Applied Science, Information Technology — Software Development Concentration | May 2026

GPA: **3.466** | Mu Alpha Theta National Mathematics Honor Society

Certification: TestOut Office Pro

SELECTED PROJECTS

Library Management System | Java, MySQL

- Developed a database-driven application using object-oriented programming, CRUD operations, database connectivity, validation, and debugging.
- Designed application logic and data structures for managing library records.

Family Contribution Management System | Java, JPA/Hibernate, MySQL

- Designed a Java-based application for managing users, contributions, and financial records using ORM and database persistence.
- Applied layered architecture concepts to organize application logic and data management.

Personal Portfolio Website | HTML5, CSS3, JavaScript

- Developed and deployed a responsive portfolio website using Git/GitHub to showcase technical skills, projects, and professional experience.

HANDS-ON IT LABS

- Configured and troubleshoot **DHCP, VLANs, Active Directory, Windows Server, PowerShell, and virtualization** in controlled simulated laboratory environments.
- Practiced diagnosing Windows, software, network connectivity, and basic system configuration issues.

PROFESSIONAL EXPERIENCE

Plant Associate — Stericycle | Charlotte, NC

- Operate assigned equipment and technology while following established procedures and safety requirements.
- Perform scanning, equipment operation, and production responsibilities with accuracy and attention to detail.
- Adapt to changing assignments and workflows while maintaining productivity and quality standards.
- Communicate operational issues and collaborate with team members in a fast-paced environment.

CORE STRENGTHS

Analytical Thinking | Technical Troubleshooting | Problem Solving | Communication | Teamwork | Adaptability | Organization
